

How to clear internet browser cache for all modern browsers

Firefox:

1. Click the menu button (top right)  and select **Options/Settings**.
2. Select the **Privacy & Security** panel.
3. In the **Cookies and Site Data** section, click Clear Data.
4. Remove the check mark in front of *Cookies and Site Data*, if you want to save Passwords.
5. With *Cached Web Content* check marked, click the Clear button.
6. Close the “*about:preferences*” page. Any changes you've made will automatically be saved.

Chrome

1. At the top right, click .
2. Click **More tools** and then **Clear browsing data**.
3. At the top, choose a time range. To delete everything, select **All time**.
4. Next to "Cookies and other site data" and "Cached images and files," check the boxes.
5. Click **Clear data**.

Edge

1. Open Menu  (top right) > Settings > “Privacy, search, and services”.
2. Under Clear browsing data, select **Choose what to clear**.
3. Choose a time range from the Time range drop-down menu.
4. Choose the types of data you want to clear.
5. Select **Clear now**.

Internet Explorer 11

1. Click on the cog-symbol  (upper right corner) and open the menu.
2. Select the item **Internet options**.
3. In the tab "General" you can find a section "Browser history". Click on the button **Delete**.
4. Remove all checks except the selection "Temporary Internet files and website files".
5. Click on the button **Delete** to empty the browser cache. You'll delete all cache data.
