

WATER LEAK ADJUSTMENT REQUEST FORM

The City of Hamilton's Water Leak Adjustment Policy ("Policy") provides residential, not-for-profits and institutional customers who utilize City water services, limited financial assistance in regard to the repair of water leaks on private property, excluding any water leaks in the water service pipe and external taps. Commercial, industrial and income producing residential rental property owners are not eligible under the Policy. Residential tenant account holders are eligible subject to meeting all other requirements of the Policy. A "water service pipe" is defined as the pipe on private property which conveys potable water from a City watermain to the inside of the building on the property. The Policy recognizes the hardship to customers by affording an opportunity for customers to request adjustments to water and/or wastewater use charges by completing this form. A "leak" is defined as an unintentional water loss caused by broken and/or malfunctioning plumbing fixtures and/or pipes within a residence or building so that a leak occurs when there is a failure of the plumbing system to do what it was designed to do. Leaks associated with water using equipment prohibited by the City's Waterworks Bylaw, as amended, are not eligible.

Leak repairs must be completed within 60 calendar days after the customer was initially notified of increased water usage by the City's billing agent, Alectra Utilities Corporation ("Alectra Utilities"). **This form must be completed and filed with Alectra Utilities no later than 120 calendar days after the date of final repair(s).** Failure to request a review within this time period waives your opportunity for an adjustment. An adjustment may only occur after all leaks have been repaired and verified with an actual meter read(s) by Alectra Utilities following the date of repair(s). Please note that by making this request, you are consenting to the City or its representative having the right of access to your property for the purposes of an inspection to determine whether the leak was repaired within 30 calendar days of a City request for such an inspection. **If an adjustment is granted, this is a one-time only adjustment per owner.**

Bill adjustments will only be granted where water usage EXCEEDS 2 TIMES (200%) the AVERAGE of the similar period from the previous year with a maximum adjustment period of 120 calendar days. The bill adjustment amount is equal to half (50%) of the water consumption amount above the AVERAGE of the similar period from the previous year. Claims will not be approved for usage above the customer's average monthly consumption due to watering of sod, gardening, filling swimming pools or whirlpools, washing vehicles, etc. as this describes water services knowingly used by the customer. Water loss due to theft, vandalism or construction damage is not covered under the Policy. Resolving these issues is the responsibility of the customer.

No adjustments will be granted if a dwelling is unoccupied and/or vacant for 72 hours or more. For extended absences, customers should consider shutting off the water supply (with the exception where water is used for heating purposes) and draining all the pipes and appliances.

No adjustments will be granted where high water usage is identified from a "catch-up" billing following a minimum of 2 consecutively estimated billings. Actual meter readings are necessary for bills to reflect actual higher water usage to trigger the associated leak detection and subsequent any leak repairs. Customers are advised on their water bill if the billing is based on an estimated read. Furthermore, the water meter readers leave a meter read request door hanger for the customer to call in and/or return the read card with an actual consumption read from their water meter.

In order to process your water leak adjustment request in a timely manner, we have provided a request form for you. **IF NOT COMPLETED IN FULL, YOUR REQUEST WILL BE RETURNED TO YOU.**
