Dear Mr. Murray;

RE: OEB File No. EB-2025-0252, Updates to Alectra Utilities Corporation (“Alectra Utilities”) 2027-2031 Custom Rate Application for Electricity Distribution Rates and Charges (the “Application”)

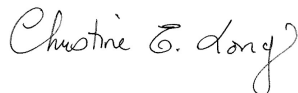

Alectra Utilities filed an update to its 2027-2031 Custom Rate Application on October 27, 2025. In an accompanying letter to the update, Alectra Utilities stated it will separately file Appendix Q (placeholder for business cases) of Exhibit 2A DSP prior to the issuance of Procedural Order 1.

In the OEB’s Completeness Letter issued on October 28, 2025, the OEB noted that Alectra Utilities did not file business cases where a capital investment substantially exceed the materiality threshold, which is a requirement under Section 5.4.2.1 of the OEB’s *Chapter 5 Filing Requirements for Electricity Distribution Rate Applications – 2025 Edition for 2026 Rate Applications*. The OEB acknowledged Alectra Utilities was working to meet this requirement and requested Alectra Utilities file the business cases by November 19, 2025.

In accordance with the OEB’s letter issued October 28, 2025, Alectra Utilities has filed an electronic version of the material business cases as Appendix Q of Exhibit 2A DSP.

Should you have any questions or require additional information, please do not hesitate to contact the undersigned.

Yours truly,

Christine E. Long
